

STYLE CHALLENGE INTERNATIONAL IS FAMOUS FOR LIFE-CHANGING MAKEOVERS.

EVERY MAKEOVER CONSISTS OF:

- **Style Personality:** A style personality combines the traits of your personality, personal tastes, lifestyle and most importantly how you want to feel or what you want to reflect which are then communicated through your clothing choices
- **Color Analysis:** Color analysis systems classify an individual's personal combination of hair color, eye color and skin tone using labels that refer to a color's "temperature" and the degree to which the hair, skin and eye colors contrast. Wearing the right colors that compliment your natural coloring can make you look healthier, younger and fabulous !
- **Figure Analysis:** Identifying which body shape you most closely resemble. Learn how to dress your shape effectively. Advice on existing items in your wardrobe. Guidance on potential items to purchase.
- **Wardrobe Planning:** It helps you determine what clothing you need, assesses what you want from what you already have, and identifies what's missing from your wardrobe. There are several benefits of planning a wardrobe.
- Up to date Hairstyle and Color
- Make-up
- Nails
- Photoshoot (before and after photo's), is also part of our clients awesome day !
